

TRAINING

SGS

has APPROVED the training activity of CONAPRO SL. Under the safety standard of wind energy sector, Basic Safety Training (BST) established by the Global wind organisation (GWO) and accepted by the wind energy sector as Single Standard that regulates the need for basic training.

This standard of training consists of 5 modules which have been certified 4: Height, Manual Materials Handling, First Aid and Fire Fighting. Upon completion of the modules BST, attendees will be aware of the risks encountered when working in the wind industry, and how to control and mitigate those risks.

COURSE MANUAL HANDLING

The BST will also provide participants with the knowledge, skills and confidence to respond appropriately in an emergency and to improve safety through proper use of emergency procedures and equipment.

Here are the details Module manual handling:

OBJETIVE

The objectives of this module are to raise awareness through theoretical and practical training on safe behavior in the MHL and perform manual handling activities in a safe manner within the wind energy sector.
